

## Policy of Waste management

### Introduction

Waste management is essential since improper disposal of trash can have negative effects on one's health, safety and environment. Therefore, it needs to manage and store wastes in an effective and safe manner. So as to prevent hurting ecosystem and to maintain a high standard of living. Kisan Veer Mahavidyalaya, Wai is deeply committed to safeguarding the environment, human health, and welfare by putting into practice efficient waste management techniques including composting, recycling, and segregation.

### Objectives:

- To encourage environment conservation and sustainability by adopting waste management practices and cleanliness drive.
- To teach the virtues of waste management among all stakeholders.
- To organize talks and awareness campaigns about environmental protection and trash management
- To practice the plastic free campus.

### Waste Management Practices

#### A) Degradable Waste Management

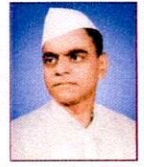

- Biodegradable kitchen waste from the canteen, as well as horticultural waste such as dry leaves and twigs, will be taken in and utilized for vermicomposting around campus.
- Office processes are being digitalized using email, Google Classroom and WhatsApp groups, which is cutting down on waste

from paper.

- Utilization of dustbins on college campus for collection and separation of waste.

**B) Non-Degradable Waste Management:**

- Trash such as glass, metal, plastic, newspaper, and stationery is retrieved by putting separate bins.
- The collected non-biodegradable garbage's are separated and sold to approved vendors.
- Chemical waste produced in the lab is collected in distinct tanks and soak pits and a treatment is made to make it normal.
- All stakeholders are made aware of the waste management practices and trained to adopt it on and off campus.
