- **Entrepreneurs Castle:**

At Entrepreneurs' Castle, we strive to serve as an Industry – Academia Interface. We aspire to create a seamless transfer of human resourceskills across the academia and the industry, in addition to custom- made business solutionsfor business entities on board.

What forms part of our fundamental mission statement is the addressing of malicious, malignant and dreaded "skill set gap" and the lacunae in the "employability quotient" of students enrolled in professional courses in various institutes of the country. Students enrolled at management institutes which do not form part of the Indian Ivy League of IITs, IIMs, find themselves in a vicious cycle of what holds prime importance in the real world and their institute's brand identity or their own competency.

With diligent designing of our operational model, we focus on implementing an all-consuming, assimilation and absorption of management students in the real business world by subjecting them to rigorous modules and syndicated internship programs. Most essential would be the two - way interface that we aim to create wherein the transparency between a company's wish list and the candidate's own expectations move in tandem, so that both entities receive the best of both worlds.
