

# Special Lecture on "Career Opportunities in Statistics"

## Activity Report

Date - 03/02/2025  
Year - 2024-25

Janata Shikshan Sastha's  
**Kisan Veer Mahavidyalaya, Wai**  
Department of Statistics  
Special lecture on "Career Opportunities in Statistics."  
**REPORT**

The Department of Statistics organized a special lecture on "Career Opportunities in Statistics." The session was conducted by Mrs. Anamika Prasad Ghadge, Monitoring and Evaluation Officer at NHM, Satara. The goal of the lecture was to help students understand different career options after studying statistics. Mrs. Anamika Prasad Ghadge explained the importance of statistics in various fields and discussed job opportunities in this area.

Dr. Waliv introduced the theme of the special lecture and introduced the resource person. Then, the Principal welcomed the guest, and the Head of the Department welcomed the Principal. There were 22 students present for this lecture.

Mrs. Anamika Prasad Ghadge spoke about the Indian Statistical Service and how statisticians help in government decision-making, data analysis, and research. She explained the ISS exam, who can apply, and how to prepare for it. She also talked about jobs in the Department of Economics and Statistics, where statistical knowledge is useful for research and decision-making. In addition, she discussed how statistics is used in the banking sector for analyzing risks, predicting trends, and making financial decisions.

She further emphasized that data is the most crucial asset in this decade. She highlighted how International Institute of Population Studies (IIPS) works as a third-party auditor for statistical decision-making regarding government policies. She illustrated how statistics helps in maximizing the utilization of minimum resources by providing a creative example: A woman with only one bucket of water needs to accomplish three tasks - bathing a baby, watering plants, and bathing a cow. While common approaches might involve prioritization or alternative water sources, a statistician's perspective suggests an optimized solution: seating the baby on the cow, positioning both under a tree, and then using the bucket of water efficiently to fulfil all three tasks simultaneously. This example captured the essence of statistics in problem-solving.

The Head of the Department addressed the audience, mentioning the success of the department's alumni, including Amol Jadhav and Wadkar, who have excelled as data scientists and biostatisticians with lucrative salary packages. He also emphasized that the department's last three faculty members secured excellent jobs in statistics due to their rigorous practice and application of programming in R for statistical analysis.

The Principal then addressed the students, emphasizing that statistics is used in every field, from business and healthcare to research and technology. He highlighted that statistics is easy if practiced regularly but difficult without consistent effort. His inspiring words motivated students to approach statistics with confidence and determination.

The Department of Statistics extends its gratitude to Mrs. Anamika Prasad Ghadge for sharing her expertise and guiding students towards promising careers. The vote of thanks was proposed by Dr. Waliv, who appreciated the speaker's valuable insights and encouraged students to actively apply their statistical knowledge in real-world scenarios.

To,

Mrs. Anamika Prasad Ghadge,  
Monitoring & Evaluation Officer,  
National Health Mission,  
Satara Division, Satara.

Respected Madam,

We are thankful to you for accepting our invitation and guiding the students in special lecture on 'Career Opportunities in Statistics' for B.Sc. Part I, II and III organized by Department of Statistics, Kisan Veer Mahavidyalaya, Wai held on 3<sup>rd</sup> February, 2025.

Your presentation was quite enlightening. Your views will go a long way in motivating our students.

Thinking together we can move forward. Ideas don't need any legs to stride but they need strength and support to translate all the promises to real life. Our association will definitely work in this way

Madam, we feel indebted to you and look forward to your continued guidance.

Thanking you.

Yours sincerely,

Principal
