Department of Statistics
Guest lecture on
"Career Opportunities in Biostatistics."

REPORT

The Department of Statistics at Kisan Veer Mahavidyalaya, Wai, organized a guest lecture on "Career Opportunities in Biostatistics" on 29/03/2025 to guide B.Sc. III students toward emerging and rewarding paths in the field of statistics.

The session began with a formal welcome by the Principal, followed by the introduction of the guest by Dr. R. H. Waliv. The session was conducted by resource person Mr. Sunil More, Assistant Professor, Department of Statistics, Yashwantrao Chavan College of Science, Karad, who brought a unique combination of academic insight and practical knowledge. He explained the interdisciplinary field of biostatistics, emphasizing its significance in healthcare, clinical trials, public health research, and policymaking. Mr. More elaborated on how biostatisticians contribute to study design, data analysis, and interpretation in both government and private sectors. He also explained the inclusion Vedic Mathematics. He emphasized on how Vedic Maths techniques can enhance mental calculation skills and improve analytical thinking which is essential for statistical problem-solving. He demonstrated shortcut methods for multiplication, division, and squaring, which captivated students' interest. These examples not only made the session interactive but also showed how traditional knowledge systems can complement modern statistical tools. Mr. More encouraged students to explore biostatistics as a promising career path and to pursue higher studies or certification courses to boost their employability. He also stressed the need for critical thinking and consistent practice to succeed in the field.

The Head of the Department shared success stories of department alumni who are currently excelling in data science and biostatistics. He emphasized the importance of software skills in R, SAS, and SPSS for modern biostatistical analysis.

The Principal then addressed the students, emphasizing that statistics is used in every field, from business and healthcare to research and technology. He highlighted that statistics is easy if practiced regularly but difficult without consistent effort.

The lecture concluded with a vote of thanks proposed by Ms. Ashwini, expressing appreciation for Mr. More's inspiring and informative talk. Students found the session highly engaging, motivating, and beneficial for their academic and career planning. In all 14 number of students got benefited from the lecture
