Department of Chemistry  
Industrial Visit

An Industrial visit to the **Mapro Food Park, Shendurjane** was organized by the **Department of Chemistry** for B.Sc. and M.Sc. students with the aim of providing them to help us understand how fruit products are processed and packaged on an industrial scale. Our Industrial visit to Mapro Food Park at Shendurjane was a very informative and interesting experience. Mapro is a popular brand known for its fruit-based products such as syrups, crushes, jams, squashes, chocolates, and fruit bars.

During their visit, students were excited to watch a short film about the Mapro Food Park, detailing its history, growth and fruit based product preparation. The informative film, accompanied by popcorn, enhanced their experience, making it memorable and engaging as they learned about the companies success story.

During the visit, we observed different sections of the factory. First, we learned about the **selection and cleaning of fruits**. Fresh fruits such as strawberries, mangoes, and other seasonal fruits are carefully selected and washed to maintain hygiene and quality. After that, the fruits are processed using modern machines for crushing, pulp extraction, and mixing with sugar and other ingredients.

We also saw the **heating and preservation process**, where the fruit pulp is heated under controlled conditions to make syrups, jams, and crushes. This process helps increase the shelf life of the products while maintaining their taste and nutritional value. Another important section we observed was the **bottling and packaging unit**. In this section, the prepared syrups and crushes are automatically filled into bottles using machines. The bottles are then sealed, labeled, and packed in cartons for distribution to markets across India.

The staff also explained the importance of **quality control and hygiene** in the food industry. Every batch of product is tested to ensure that it meets safety standards. Workers wear protective clothing such as gloves and caps to maintain cleanliness inside the factory.

At the end of the visit, we visited the **Mapro outlet**, where many delicious products were available for tasting and purchase. This made the visit enjoyable as well as educational.

Overall the visit was successful and will be beneficial to our students of B.Sc. and M.Sc. Total 39 students in which 15 males and 24 females along with 10 faculty members were participated in Industrial Visit.

To,

The Manager,

Mapro Food Park, Shendurjane

(Wai - Surur Road).

Sub: Permission to visit your Mapro Food Park, Shendurjane.

Respected Sir,

As per the Syllabus of Shivaji University, Kolhapur, the Department of Chemistry of our college is organizing One day Industrial Visit of students studying at B.Sc. and M.Sc. to your Mapro Food Park, Shendurjane (Wai - Surur Road) on Saturday, 07/03/2026 at 10.00 am.

We request you to kindly grant us permission for the visit and provide the students with valuable information regarding the industry's operations.

Thanking you,

Yours faithfully,

Principal

To,

The Manager,

Mapro Food Park, Shendurjane

(Wai -Surur Road).

Sub- Vote of Thanks.....

Respected Sir,

We would like to extend sincere gratitude to you and your entire team for hosting our B.Sc. and M.Sc. students for an Industrial Visit on 07/03/2026, providing students with the opportunity to step out of the classroom and into a professional environment.

During the visit concern employees of your Mapro Food Park provided all the information about the Quality Control, Process of manufacturing the Products to the students.

We are very much thankful to you for co-operation extended during the visit. Expecting the same co-operation in future.

Thanking you,

Yours faithfully,

Principal
