

Report of National Webinar on "Agricultural Pests and Management" Organized by Department of Zoology and IQAC, Kisan Veer Mahavidyalaya, Wai, on Friday, 4th September 2020 at 11.00 am under Lead College Scheme

1. Welcome address was given by Mr. Ravindra V. Bakare, the Convener of the National Webinar and Head, Department of Zoology. He offered warm welcome to Hon. Dr. U. Sreedhar, Principal Scientist & Head, Division of Crop Protection, Central Tobacco Research Institute, ICAR, Rajahmundry, Andhra Pradesh. Hon. Professor Dr. S. B. Kharbade, Associate Dean, College of Agriculture, Nandurbar, Mahatma Phule Krishi Vidhyapeeth, Rahuri Hon. Professor Dr. M. V. Santha Kumar, Head, Department of Zoology, Shivaji University, Kolhapur Hon. Dr. J. S. Chaudhari, Secretary, Janata Shikshan Sanstha, Wai Hon. Dr. E. B. Bhalerao, I/C Principal, Kisan Veer Mahavidyalaya, Wai and all participants. He also narrated about the situations caused due to Covid-19 pandemic has been causing a lot of havoc to human endeavors all over the world. Classroom teaching, organization of curricular and extracurricular activities at the campus is no longer possible. Thanks to the internet and the online Apps, it has become possible to conduct online classes as well as online organization of webinars. Ours is one such attempt to organize this National Webinar on the most relevant topic causing a lot of damage to crops and Agriculture.
 2. Dr. S. R. Sawant introduced Dr. J. S. Choudhary, Chief Guest, Dr. U. Sreedhar, Keynote speaker; Prof. Dr. S. B. Kharbade and Prof. Dr. M. V. Santhakumar; which were resource persons for the online webinar.
 3. Dr. J. S. Choudhary announced the inauguration of the webinar and guided the participants about the importance and use of ICT in education.
 4. The inauguration programme was concluded with vote of thanks offered by Mr. S. P. Kamble, Coordinator, IQAC.
 5. Prof. Dr. S. B. Kharbade delivered and presented Lecture on Locusts. Locusts are perhaps the close enemy which I feel now may attack in early years. Locust swarms are infamous for voraciously feeding on agricultural crops, trees, and other plants. In fact, this feeding can devastate crops and grasses grown for people and livestock, causing famine and starvation in communities that depend on their crops for survival
 6. Prof. Dr. M. V. Shanthkumar delivered and presented lecture on Invasive Pests. He discussed in details about destruction and control of pests. He also answered the queries of the participants.
 7. Dr. H. D. Kanase, Organizing Secretary of Webinar offered vote of thanks.
- 735 participants have registered for the webinar and it was linked to you tube live streaming.

Dear All, Warm Greetings.....!!!

We are pleased to invite you for a National webinar on Agricultural Pests & Management organized by our college. Scholars, Teachers and Research students of Life Sciences are requested to join and participate.

Resource Persons

Professor Dr. S.B. Kharbade
Associate Dean,
College of Agriculture Nandurbar
Mahatma Phule Krishi Vidhyapeeth, Rahuri

Professor Dr. M. V. Santh Kumar
Head,
Department of Zoology
Shivaji University, Kolhapur

Topic: Locusts & Management

Topic: Invasive pests: A New Threat to Agriculture

Chief Guest

Dr. Jaywantrao S. Chaudhari
Secretary, Janata Shikshan Sanstha Wai

Dear All, Warm Greetings....!!!

I am pleased to invite you for a National webinar on "Agricultural Pests and Management" organized by our college. Scholars, Teachers and Research students of Life Sciences are requested to join and cooperate.

The Theme of The Webinar

Invasive pests and chiefly Locusts are nuisance to the agriculture and are main barriers in getting good quality and quantity of crop. In this Webinar we will focus on how to encounter these pests and especially Locusts which may damage 100% crop within few minutes. Two eminent Scientists and well known teachers in this field will be guiding us in this regard.

National Webinar on "Agricultural Pests and Management" Organized by
Department of Zoology and IQAC

Hon. Dr. U. Sreedhar, Hon. Professor Dr. S. B. Kharbade, Hon. Professor Dr. M. V. Santha Kumar, Hon. Dr. J. S. Chaudhari, Hon. Dr. E. B. Bhalerao, I/C Principal and all my dear participants, Ladies and Gentleman; Good Morning
On behalf of JanataShikshanSansths's Kisan Veer Mahavidyalaya, Wai, Department of Zoology and IQAC, I take this opportunity to extend a very warm welcome to all of you in this one-day National Webinar on "Agricultural Pests and Management" organized through Zoom Cloud Meeting and Live You tube streaming today. All of you know, covid pandemic has been causing a lot of havoc to human endeavors all over the world. Classroom teaching, organization of curricular and extracurricular activities at the campus is no longer possible. Nevertheless thanks to the internet and the online Apps, it has become possible to conduct online classes as well as online organization of webinars. Ours is one such attempt to organize this National Webinar on the most relevant topic causing a lot of damage to crops and Agriculture.

A lot of thanks to our Head of Department Prof. Santha Kumar. I asked about Locust management, as I was intending to organize on Locusts, which is a matter of serious concern these days. It is just like pandemic and can destroy the 100% crop within minutes. He suggested us a prominent personality in this field Professor S. B. Kharbade, Dean of College of Agriculture, Nandurbar.

Locusts are perhaps the close enemy which I feel now may attack in early years. **Locust** swarms are infamous for voraciously feeding on agricultural crops, trees, and other plants. In fact, this feeding can devastate crops and grasses grown for people and livestock, causing famine and starvation in communities that depend on their crops for survival. A one-km swarm with about 40 million locusts can consume what 35,000 people do in a day. A swarm the size of Paris eats as much food in a day as half the population of France. This makes locusts deadly for agriculture. As they travel, they leave behind a trail of thousands of hectares of destroyed crops.

Therefore we are making our efforts to attract the research scholars towards the upcoming disaster. I hope that this webinar will make our purpose fruitful. I am thankful to the Resource persons and delegates for their participation.

Sub.: Organization of National Webinar under Lead College Scheme.....

Respected Sir,

Department of Zoology and IQAC of our college are planning to organize National Webinar on **Agricultural Pests Management**. The resource persons are Professor Dr. Satappa Karbade, Associate Dean, Agriculture College, Nandurbar and Professor Dr. M. V. Santh Kumar, Head Department of Zoology, Shivaji University, Kolhapur.

The proposed date of the webinar is 04/09/2020, at 11.00 am.

You are therefore requested to grant permission to organize the National Webinar Lead College Scheme.

Thanking you,

Faithfully yours

Ravindra V. Bakare
