## **Introduction**

The goal of higher education is to nurture human beings responsible for their own betterment and capable of sustaining society and nature, besides enabling them to procure a position to earn their livelihood. The incoming undergraduate students are often influenced by their parents and society to join higher study without understanding their own interests and talents. There is high probability that students fail to develop an understanding about the goals of Educational Institutes as well as higher education. The graduating student must have knowledge and meta-skills related to his/her work, and as a citizen. The Student Induction Programme (SIP), therefore, conducted for the B.A., B. Com. and B. Sc. Part-I students to help them feel comfortable, draw their attention towards exploring their academic interests and activities, reducing competition and making them work for excellence, promote bonding within them, build relations between teachers and students, open new horizons of life and leading to character building.

## **The Objectives of SIP**

The main objectives of the program are

- to help the new students adjust and feel comfortable in the new environment
- to inculcate the aims, objectives and discipline of the institution
- to make them acquainted with the syllabi and credit framework of NEP-2020
- to facilitate to adjust themselves in a changing scenario on the part of implementation of NEP-2020
- to help them build bonds with other students and faculty members
- to expose them to a sense of larger purpose and self-exploitation
- to learn about the institutional policies, processes, practices, facilities, culture and values
