PREFACE

It gives us great pleasure of introduced before you report the project entitled

“students opinion about effect of social media”.

It was a really great experience while doing this project. We would like to inform the readers this project work is part of curriculum for the students of B.SC.III. Our contribution in this project it is to collect and analyse the data.

We would like to express our deep gratitude towards the all of my teachers for valuable guidance for the successful completion of the project. Also we would like to express our thanks to all my teachers for guiding us and boosting our words from time to time.

Finally we would like thank those who directly and indirectly lead a hand of help and made this project a grand success.

ACKNOWLEDGEMENT

- ❖ We will this opportunity to gracefully thank to all those people, without this project would not have been succeeded. Every helping hand us their own special own special way contributed towards to the success of this project.
- ❖ We are really thankful to Shivaji University, Kolhapur, for this opportunity. Our gratitude to Prof.Mr.B.B.Patkure, Head of department Statistics for providing us all necessary facilities.
- ❖ We should like to thank Mr.R.H.Waliv & Miss.A.S.Gaikwad ,Miss N.B.Raut for her guidance. She not only help us for our project but also stood us with every time
- ❖ We are very grateful to our college management for providing us with a well establishment laboratory support to perform this work in college.
- ❖ We are thankful to be Department of statistics for their contribution for the improvement in the project to make it more elegant.
- ❖ Also we should like to express my thanks to all staff members and those who directly and indirectly support us to complete this project.

DECLARATION OF STUDENTS

We hereby declare that the project work entitled “A statistical study on students opinion about effect of social media” is the original work carried out by us form the department of statistics of “Kisanveer Mahavidyalaya, Wai”.

This project has not been carried out previously by any person. So we selected this project for field work.

INTRODUCTION

In this modern technology era using social media is common thing some prime examples of social media sites are Facebook, What's App, Twitter, and Instagram.

We all know that all these social media websites are growing rapidly due to the heavy traffic they receive around the globe.

As everybody knows that there are two sides to the coin so there are ***negative and positive impacts of social media on students' life***. Which we are going to discuss in brief.

The overuse of social media websites by students and professionals can damage their personal, as well as academic life.

DATA COLLECTION

❖ **Online Data-:**

First we created of google form then we sent the form to the colleges,whats app groups as well as to the friends .

❖ **Offline Data-:**

After collecting online data we went to students home and collected information about effect on social media on students life. We took responses from students who did have their own mobile.

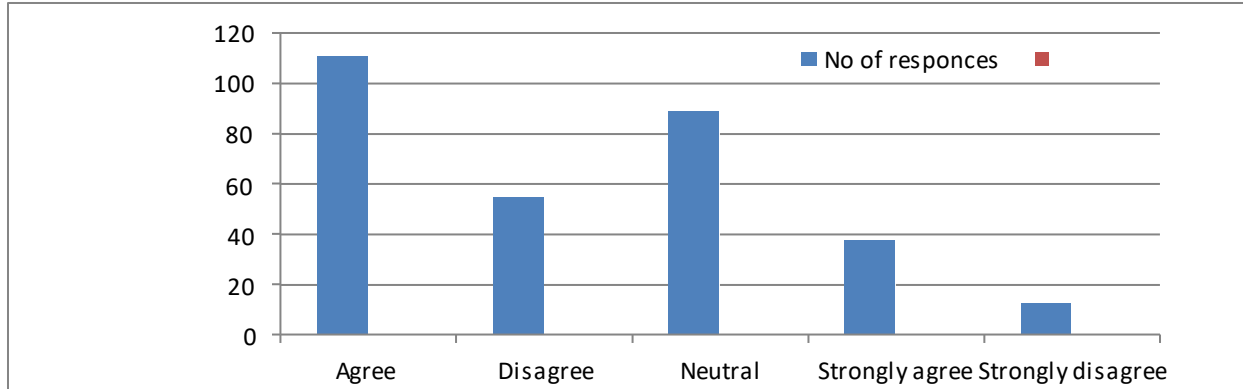

OBJECTIVE

In this study, we studied different factors related to “effects on social media on students life ,”which as follows

- 1) To check social media focus on lose on study.
- 2) To check social media disturb students state of mind.
- 3) To check students time spends for physical fitness
- 4) To check most advantages of social media on students
- 5) To check the significant relation between gender &social media addiction
- 6) To check the significant relation between gender &academic performance

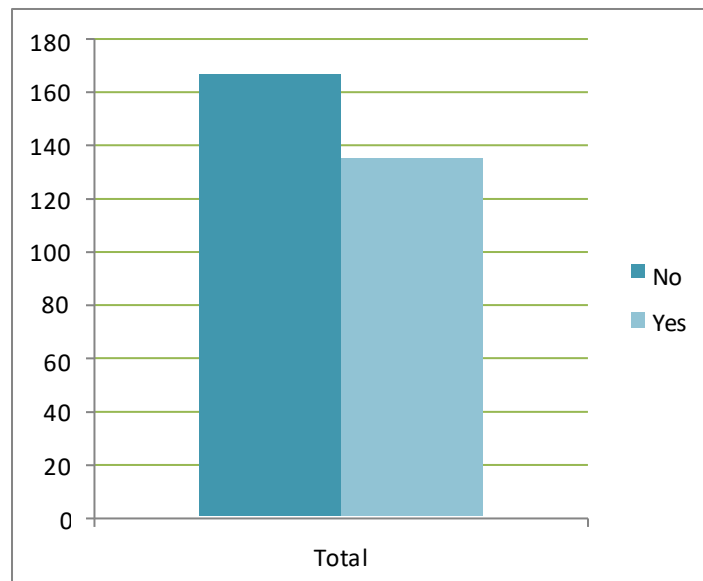

GRAPHICAL REPRESENTATION

➤ SOCIAL MEDIA MAKE YOUR FOCUS LOSE ON STUDY

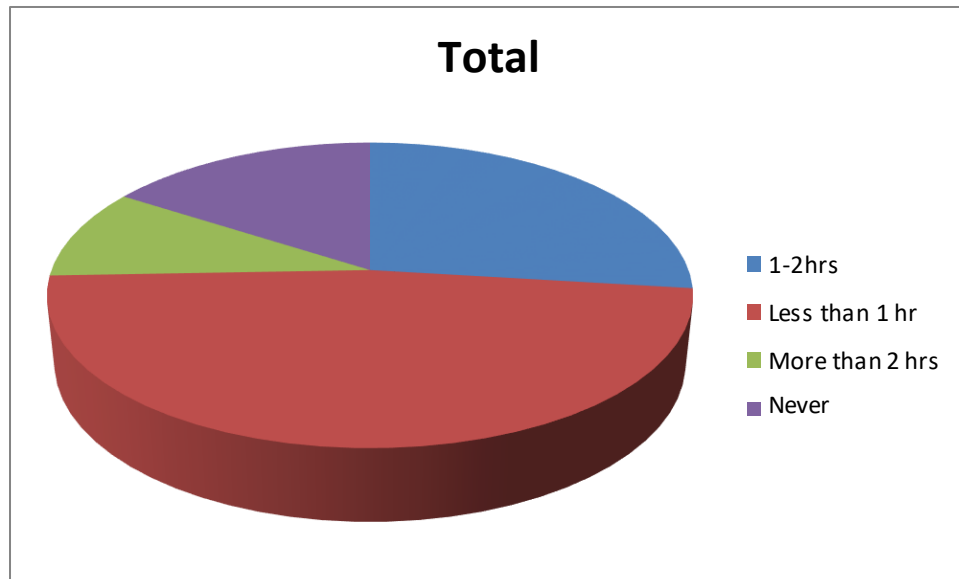

CONCLUSION:- From Graph we conclude, that students agree with social media have focus on study.

➤ SOCIAL MEDIA DISTURB YOUR STATE OF MIND

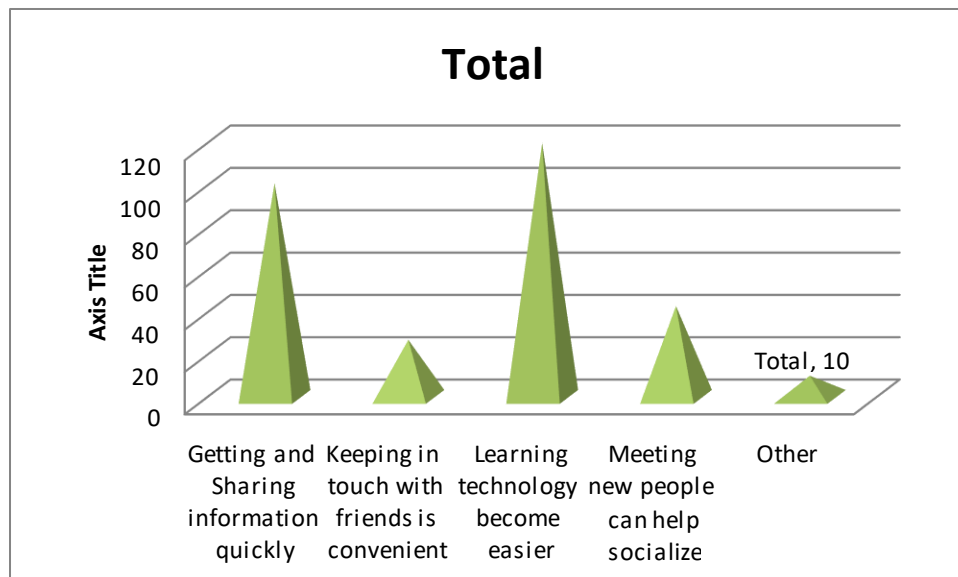

CONCLUSION:- From the graph, we conclude that social media does not disturb students state of mind.

➤ TIME SPEND FOR PHYSICAL FITNESS

CONCLUSION:- From the above pie chart we conclude that most of the student spend less than 1 hour spend for fitness.

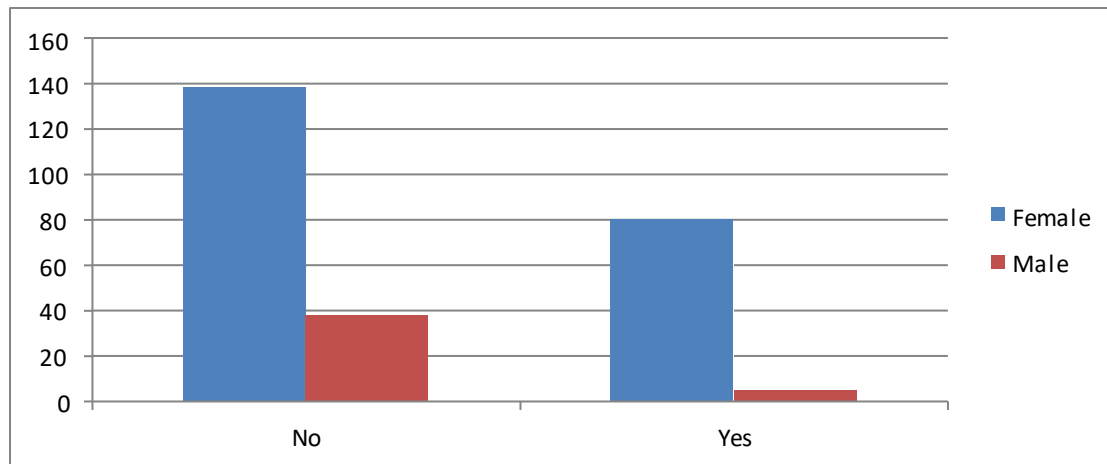

➤ ADVANTAGES OF SOCIAL MEDIA

CONCLUSION:- From the graph we conclude that, students think learning technology become easier is the main advantage of social media.

❖ To check the significant relation between gender and social media addiction.

Count of Do you feel that you're addicted with social media?			
	Female	Male	Grand total
No	138	38	176
Yes	80	45	125
Grand Total	218	83	301

HYPOTHESIS-:

Ho: there is no significant relation between gender & social media addiction.

v/s

H1: There is significant relation between gender & social media addiction.

CALCULATION:-

Calculated chi-square = 7.598497995

Tabulated chi-square = 3.841458821

CONCLUSION:- Tabulated chi-square < Calculated chi-square.

Hence we reject H_0 at 5% level of significance.

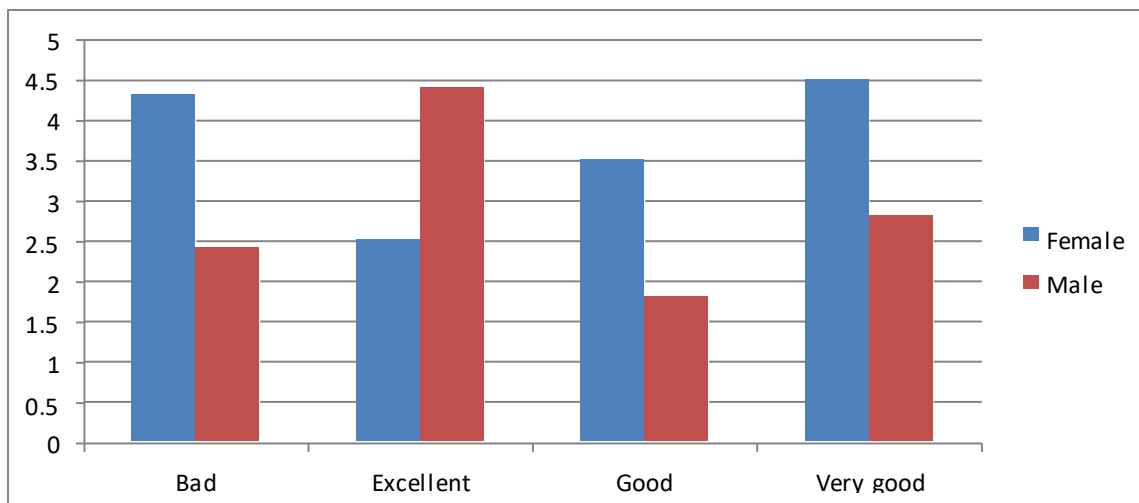

RESULT:-

There is significant relation between gender & social media addiction.

❖ To check the significance relation between Gender and Academic performance

Count of How has social media app impact your academic performance?

	Female	Male	Grand total
Bad	29	21	50
Excellent	15	12	27
Good	147	38	185
Very good	27	12	39
Grand total	218	83	301

HYPOTHESIS:-

H₀:There is no significance relation between gender & acadamic performance v/s

H₁:There is significance relation between gender & acadamic performance

CALCULATION:-

Calculated chi-square:-34.74498341

Tabulated chi-square:-7.814727903

CONCLUSION:-

Calculated chi-square > Tabulated chi- square

Hence we reject H₀ at 5% level of significance

RESULT:-

There is significance relation between gender & acadamic performance

Advantages of social media

- 1. Connect with friends and stay in touch with people**
- 2. Access a wide range of information and resources**
- 3. Keep up with current events and news**
- 4. Share ideas and experiences with a large audience**
- 5. Participate in Online Communities and Groups**
- 6. Promote your work or projects**
- 7. Communicate with teachers and classmates**

Disadvantages of social media

1. Spending a lot of time on social media
2. Decrease in Communication skills.
3. Cyber attacks are becoming more prevalent in today's world
4. Lack of Confidence Social Media can cause serious health concerns for students
5. Lack of Confidence Social Media can cause serious health concerns for students

CONCLUSION

1. Social networking clearly portrays both positive and negative effects on students. It is decision of an individual to decide what to take from them.hence ,it can be said that social media is blessing to huminity if used appropriately and also a weapon of distruction if misrepresented .
2. The students get motivated and inspired by using social media.
3. Students more prefere to watch instagram, whatsapp, twitter, facebook, telegram, etc.on social media.
4. Students mainly watch social media for relaxation.
5. Students agree on social media is good tool for gaining knowledge and it improves the academic performance
