One Day Workshop on

“Introduction to Statistics: From Classroom to Real-World Applications and Career Opportunities”

Report

A one-day workshop entitled “Introduction to Statistics: From Classroom to Real-World Applications and Career Opportunities” was jointly organized by Kisan Veer Mahavidyalaya, Wai and the Shivaji University Statistics Teachers Association (SUSTA) on 3rd February 2026. In this workshop 130 students and 12 teachers were participated.

The workshop commenced with a welcome address and introductory remarks by the Dr. Waliv (HOD, Statistics), who also introduced the distinguished guests. The inaugural function was graced by the Chief Guest, Prof. Dr. Mahadik, who formally inaugurated the workshop. The Chief Guest, Prof. Dr. Mahadik Sir, also explained the objectives, roles, and activities of the SUSTA. The President of the inaugural function was Honourable Principal, Dr. G. J. Fagare. In his presidential address, he emphasized the importance of statistics and highlighted its applications across various fields such as education, economics, industry, health and research. The inaugural session concluded with a vote of thanks delivered by Dr. Gholap V. D.

Technical Session I: The resource person was Prof. Dr. Mahadik. In his lecture, he explained how statistics helps in making fair, unbiased, and objective decision making. He illustrated this with the example of evaluation of the research performance of university teachers in India using variables such as the number of research papers, citations and the h-index. He further demonstrated the application of Principal Component Analysis (PCA) to reduce dimensionality and summarize research performance indicators effectively.

Technical Session II: The resource person was Dr. Sutar discussed household consumption patterns of food and non-food items in India based on data from the 79th and 80th rounds of the National Sample Survey Office. He explained consumption behaviour using measures such as Monthly Per Capita Expenditure (MPCE) and illustrated patterns with the help of heat diagrams and radar diagrams. He also explained decision-making techniques using the TOPSIS (Technique for Order Preference by Similarity to Ideal Solution) method, demonstrating how statistics assists in ranking alternatives and supporting policy and economic decisions.

Technical Session III: The resource person was Dr. Supanekar explained important statistical concepts such as measures of central tendency, standard deviation, coefficient of variation, and Bayes' theorem. He also discussed interesting concepts like Simpson's Paradox and the Monty Hall problem, which helped students understand statistics from a logical and practical perspective.

Technical Session IV: This was the participatory session. The students conducted simple statistical experiments. Some students also presented a short skit based on statistical ideas. These activities made the session interactive and engaging, helping students grasp statistical concepts more effectively.

Technical Session V: This was the last session conducted by students. The interview of two alumni of the college was conducted. One of them is working in the corporate sector, while on the other is employed in the government sector. Through the interactions, students gained valuable insights into various career opportunities available in the field of statistics and learnt about real-world applications of the subject.

Overall, the workshop was highly informative and beneficial for both students and teachers. It successfully bridged the gap between classroom learning and real-world applications while creating awareness about career prospects in statistics.

The programme concluded with a vote of thanks proposed by Miss Ashwini Gaikwad,

Head

Principal

Subject: Permission to conduct One-Day SUSTA Workshop.

Respected Sir,

The Department of Statistics proposes to organize a One-Day Workshop for B.Sc. I students of Statistics from Satara district, in collaboration with SUSTA. SUSTA will contribute ₹10,000 towards this workshop. The workshop is scheduled to be held in January 2026. We kindly request your permission to conduct this workshop in our college.

Thanking you

Yours faithfully,

Dr. R. H. Waliv

Subject: Invitation as a Resource Person

Respected Madam,

Various student-oriented academic activities are being organized in our college through different departments with the objective of enhancing students' academic and career awareness. In continuation of these initiatives, we propose to organize a One-Day University Level Workshop entitled "Introduction to Statistics: From Classroom to Real-World Applications and Career Opportunities", in collaboration with the Shivaji University Statistics Teachers Association (SUSTA).

The primary objective of this workshop is to create awareness among students about the fundamental concepts of Statistics, its applications in real-life situations and various professional fields, and the wide range of career and employment opportunities available in the discipline of Statistics.

We are well aware of your expertise, academic contributions, and rich experience in the field of Statistics. Considering your distinguished profile, we strongly feel that your guidance and interaction will be highly beneficial and inspiring for the participants. Hence, we would be honoured if you kindly consent to serve as the Resource Person for this one-day workshop and share your valuable knowledge and insights with the students.

The workshop is scheduled to be held on Monday, 03rd February 2026 at our college campus. We sincerely hope that you will accept our invitation and grace the occasion with your esteemed presence. We shall be grateful for your positive response.

Thanking you.

Officer (Model Analyst II)
Citi Corp Services India Pvt. Ltd.,

Respected Sir,

We are extremely thankful to you for accepting our invitation and guiding the students during the One-Day University Level Workshop titled "Introduction to Statistics: From Classroom to Real-World Applications and Career Opportunities", organized in collaboration with the Shivaji University Statistics Teachers Association, and held on 03rd February at our college.

Your session was highly informative, inspiring and intellectually enriching. The clarity with which you explained the concepts of Statistics, its real-world relevance, and career prospects made a lasting impact on the participants. Your valuable insights and practical approach will undoubtedly motivate the students and help them develop a deeper understanding and interest in the subject.

We truly believe that when we think together, we move forward. Ideas do not require legs to stride, but they certainly need strength, support, and guidance to transform promises into reality. Your contribution to this workshop exemplified this philosophy and greatly strengthened the academic experience of our students.

We feel deeply indebted to you for your valuable time, effort, and scholarly guidance. We sincerely look forward to your continued support and association in our future academic endeavours.

With regards and sincere thanks.
