"Celebration of Pi Approximation Day"
Report

The Department of Mathematics, celebrated **Pi Approximation Day** on **22 July 2026** with great enthusiasm. The programme was organized under the guidance of the Head of the Department, Dr. Shivaji R. Tate, for the students of B.Sc.

Dr. Tate explained the importance of celebrating Pi Approximation Day on **22/7**, as the fraction **22/7** is the well-known approximation of the mathematical constant (π). He also highlighted the importance of (π) in mathematics, science, engineering, and everyday life through simple and interesting examples.

To make the session more engaging, educational videos were shown to all undergraduate students. The videos explained the history of (π), how mathematicians discovered and calculated its value, and its applications in geometry, technology, engineering, and space science. The audio-visual presentation helped students understand the concepts in an easy and enjoyable way.

A total of 14 participants benefited from the Pi Approximation Day Celebration, including 03 teachers (Male: 01, Female: 02), 01 non-teaching staff (Male: 01), and students (Male: 04, Female: 10). The programme was informative, interactive, and inspiring. It encouraged students to develop a greater interest in mathematics and to appreciate the beauty and practical importance of one of its most fundamental constants.

Subject: Permission to Celebrate **Pi Approximation Day** in the College

Respected Sir,

The Department of Mathematics proposes to celebrate **Pi Approximation Day** on **22nd July 2026** for the students of our college. The objective of this programme is to create awareness about the importance of the mathematical constant π (Pi) and to develop students' interest in mathematics through engaging academic activities.

On this occasion, the Department plans to organize a special lecture by Dr. Shivaji R. Tate, Head, Department of Mathematics, on the significance of $22/7$ as an approximation of π and its applications in mathematics, science, engineering, and technology. An audio-visual presentation featuring educational videos on the history, computation, and practical applications of π will also be arranged for the students.

We believe that this programme will enhance students' mathematical understanding, stimulate scientific curiosity, and encourage them to appreciate the beauty and relevance of mathematics in everyday life.

Therefore, I kindly request you to grant permission to organize this programme on 22nd July 2026. We assure you that the programme will be conducted in a disciplined and educational manner.

Thanking you.

NOTICE

Date: 20/07/2026

Celebration of Pi Approximation Day

All the students are hereby informed that the Department of Mathematics will celebrate Pi Approximation Day on 22nd July 2026. On this occasion, a special academic programme will be organized to create awareness about the importance of the mathematical constant π (Pi) and its applications in mathematics, science, engineering, and technology. The programme will include a special lecture of Dr. Shivaji R. Tate, Head, Department of Mathematics, on the significance of 22/7 as an approximation of π , followed by an audio-visual presentation on the history, computation, and real-life applications of π . All students are encouraged to actively participate in the celebration.

Venue: Mathematics Laboratory (B-14)

Time: 1:00 p.m.
