Respected Sir,

I have completed the topics of theory and practical allotted to me in due course. Following are the details of syllabus allotted and completed during the academic year 2022-2023

Class	Syllabus allotted		Remarks
	Theory	Practical	
B. Sc. Part III	Semester V Paper IX Entire	Practical No. I	Paper IX completed Practical I 50% completed
B. Sc. Part II	Semester III Paper V Unit II Reptile Aves Mammals	Practical I 2 Batches	Paper V completed Practical I 50% completed
B. Sc. Part I	Semester I Paper I Unit II Arthropoda Paper II Unit II History of Life Evolutionary Theories	N. A.	Paper I and Paper II completed

This is for your kind information and necessary documentation.

Thanking you,

Yours faithfully,

(R. R. Tayade)

Sub: about submitting of syllabus completion report for academic year 2022-23 with reference to minutes we discussed in department staff meeting.

Resp. Sir,

As per discussion held in first term conclude staff meetings of academic year 2022-23, here with I am submitting my first term syllabus completion report of distributed workload as follow.

Sr. No.	Name of Subject	Class and Div.	Percentage of Completion
1	Indian Economy	B. A. I- A	95 %
2	Micro Economics Analysis	B.A. III	90 %
3	Micro Economics	B. Com. I - A	95 %
4	Managerial Economics	M. Com. I	90 %

As mentioned above, I have completed my teaching /practical workload of respective classes as per university designed and given syllabus by attending lectures accordance with college regular time table. The assignments / projects/ seminars are being organized for rest portion of untaught syllabus for all classes and made awareness through these methods.

Kindly accept the syllabus completion report.

Thanking you,

Yours Faithfully,
Dr. Rajesh S. Gavit

Department of Psychology
Field Visit to Old Age Home and Orphanage Child
Care Centre, Pune
Report

Department of Psychology organized a visit to the 'Old Age Home' and 'Orphanage Child Care Centre' conducted by Jansewa Foundation, Pune. on 6th March 2023 On the occasion of, Holy Festival.

The visit was planned as a part of field visit to "understand Function of Geriatric Care unit and understanding orphanage children and sensitize students about the needs of the diverse people in the society.

The Old Age Home is conducted by Dr. Vinod Shaha and the Jansewa foundation, Pune as a part of social wellbeing. who have a selfless team to take care of more than 120 elderly people and inmates who stay in the old age home.

The Faculty and students offered some eatables to the elderly people and spent time with them. The inmates residing there talked their hearts out with the students and the Faculty. It was an overwhelming experience for all. The essence was to bring a smile on the faces of the old people living in this Home. Also we made plantation in the campus of old age home.

In the Evening we visited to Jansewa foundation orphanage Child Care Centre, Pune

There are 125 children with 4 care-takers and a woman in charge. It is a two-storey building with a terrace. There is a common hall. There are mattresses piled up and small red and yellow colour lockers. There are few bunk beds too. The age group of the children were ranging from 5 to 14 years.

We distributed some eatables to them. We segregated ourselves and went to talk individually to everyone. After interaction with children, we encourage them for making a good carrier in various fields. Everyone was found so active and happy during our visit. Elder children were informing us about the rules and regulation of centre.

A visit to an old age home and Orphanage child is a life-changing experience, as it is filled with emotions and sentiments.

REPORT

Industrial Visit at Kisan Veer Co-operative Sugar Factory

Date : 11/02/2023

An Industrial visit at Kisan Veer Co-operative Sugar Factory, Bhuj was organized by Department of chemistry on Saturday 11/02/2023 for the students of B. Sc. III.

Production of Cane Sugar involves a series of unit operations the respected persons and workers explained the process to students as below :

- 1. Extraction of juice:** the cane is washed to remove dirt and mud then cut diagonally into small pieces. The chips sent to milling train two rolled crusher followed by four rolled mills. The pans below 2nd, 3rd & 4th mills are simple containers. The juice sent to boiling house.
- 2. Clarification of juice:** the extracted cane juice is acidic ,opaque and greenish liquid. It contains soluble impurities like glucose, fructose, organic acids, proteins etc. and insoluble impurities like finely divided pith fibre and mud. Firstly they are removed by lime defecation process. Also the purity of juice extracted from each mill is checked by Hydrometer. if it is 16-17 briks then purity is 75-80%. Sucrose scan machine is used to check transparency of clear juice extracted from 4th mill. Transparency should be between 50-55%. In each two hour new sample of clear juice is checked by the sucrose scan machine. The pH of freshly extracted juice is 5.1-5.7 is increased to 7.5-8.5 by adding milk of lime.
- 3. Concentration of juice to syrup:** The clarified juice is dilute and has about 85% of water it is concentrated in two stages by evaporating water.
- 4. Crystallization of sugar:** to crystallize sugar water content of sugar syrup is further reduced in single effect vaccum pan.
- 5. Centrifugation :** The sugar crystals are separated from mother liquor in centrifuge machine.
- 6. By-products of sugar Industry:**
 - 1 . bagasse
 2. molasses
 - Manufacture of Ethyl Alcohol : The most important use of molasses is in manufacture of ethyl

alcohol. The yeast cells are grown in molasses nutrient medium. They incompletely oxidize the sugars present in molasis to form ethyl alcohol. Rectified spirit is (99.9% pure alcohol). The daily production of the factory is about 4000-5000 metric ton.

- Visit to soil testing laboratory :

The students had visited to the soil testing laboratory near the sugar factory. There Mrs. Rupali Khare madam gave valuable information to our students. They explained firstly how to collect sample from field by digging the the soil from several areas of field. The soil testing involves the detection of elements and nutrients present in the soil. She also suggest to use biofertilisers for farming.

Total 72 students in which 49 were male students and 23 were female students along with 7 faculty members had visited the sugary industry.
